

Online “Education Conference on One Health for Food Safety, Agriculture, and Animal Health” scheduled for January 30 – February 10, 2023

Discussion Session 3: Structure the Final Presentation

1. Find Solutions

- 1) Each person demonstrates a corresponding problem-solving solution in the chosen area.
- 2) Summarizing everyone's talk, the group needs to determine a complete solution, which must involve the role/area represented by each member of the group.

2. Final Presentation

Create a 10-minute presentation using a One Health approach to address the problem. The final presentation will be on Friday, February 10 (GMT +8:00).

Use the following guidelines to help you:

- 1) Briefly describe the One Health issue that your group researched. What is the problem? What are factors that may be causing the problem? What is the impact of the problem on people animals and/or the environment?
- 2) Imagine that you are part of a team of researchers/experts selected to work on solving this problem. What areas of expertise would you like to have on your team so that all facets of the issue can be reviewed and addressed?
- 3) Propose several short-term immediate solutions that may address the most harmful impacts of this problem.
- 4) Propose several long-term solutions that may address the problem over time.

Requirement:

- 1) All are required to participate in the final report.
- 2) On the afternoon of **February 9 (GMT +8:00)**, you will conduct a mock presentation. The team facilitator will provide comments on language and reporting logic.
